Prospectus and Announcements

OF

KITTRELL COLLEGE

1915-'16

General Information

Kittrell College is under the auspices of the A. M. E. Church and is supported by the Conferences of the Second Episcopal District, and is located on the historic place known as "Kittrell Springs," in Vance County, N. C. on the Seaboard Air Line Railway, eight miles South of Henderson and thirty-seven miles North of Raleigh. The place is an excellent one for a school of this kind, because it is quiet and has few attractions to allure the young people from the paths of virtue. The site contains sixty acres, with two streams flowing through it. Upon the school premises are two mineral springs.

The outlook is that Kittrell is destined to become a great educational centre, attracting hither not only hundreds of boys and girls, but families who wish to locate where the best educational advantages may be enjoyed.

OUR BUILDINGS

At present we have five main buildings.

Dickerson Hall, an excellent three-story frame building, recently enlarged and remodeled with modern equipment throughout, is now used as Boys' Dormitory.

Shadyside Cottage, is a neatly appointed cottage used as a teachers' home and occupied by one of the Instructors.

Orient Cottage is an attractive two-story building, with modern improvements, occupied by the Dean of the Theological Department and known as the Deanery.

Fairview Cottage is a commodious modern home, well appointed and beautifully situated, now used as the residence of the head of the College and known as the President's Home.

Duke-Memorial Hall is a large four-story brick structure with ample accommodation for two hundred girls, has modern conveniences and the very best arrangements for home and school life. It contains the college chapel, dining room, music room, library, parlor and offices. It is one of the best school buildings in North Carolina.

The Pearson-O'Kelly Model School is a beautiful structure made of native stone, concrete blocks and brick, containing rooms for the work of the Model School and the Teacher Training Classes.

OUR FACULTY

Our Faculty is composed of trained, experienced teachers, both men and women, who represent some of the best schools of the country. Fitness for the work is what we demand in all of our instructors, whatever the department of service.

ADVICE TO PATRONS

In submitting the following information concerning the courses of study, the regulations and expenses at Kittrell College, we beg to say that while we have not by any means reached our goal, we are approaching it.

All who enter upon a course of study in any department should make earnest efforts to complete it.

In making preparations to send your child to school let

that preparation be extensive enough to cover the entire term of eight months. Remember, too, that it is necessary to make some provisions for incidental expenses that require cash money. There are demands that every student must recognize, such as the purchase of stationery, and stamps, repair of shoes and clothing, keeping up dues of literary societies, traveling expenses, Church and Sunday-school contributions and such things as relate to the students' personal comfort and happiness.

Departments of Study

Domestic Science

Miss Lucy Lee Jones in Charge

Our department of Domestic Science was established and is being maintained to meet a great need. Here thorough instruction and training are given in cooking, plain and fancy sewing, dressmaking in its different branches, laundering and general housekeeping. The instruction in these subjects is both theoretical and practical, so that the girls may be able not only to do well their own work, but may also teach others, both by precept and example.

INSTRUCTION IN COOKING

First Year—Kitchen management; dish-washing, care of cooking materials, glass, china and silverware; measuring, practice work in cooking breads and plain foods, cereals and vegetables.

Second Year—Classification of food materials, care of foods, equipment of dining room and table service; practice work in cooking eggs, griddle cakes, puddings.

Third Year—Fancy cooking, lectures on Domestic Chemistry and Household Sanitation, practice work in cooking pastry, cakes, custards, soups.

Fourth Year—Invalid cookery, beverages, frozen dishes, arranging menus, marketing, practice work in cooking.

Two lessons a week. Time one hour and a half.

INSTRUCTION IN SEWING

The course in sewing may be completed in three years.

The first year's work consists of instruction in making different stitches, patchwork and plain sewing, taking notes of all important points taught.

The second year is given chiefly to the making of undergarments aprons, wash dresses, etc., drafting and taking notes.

During the third year students learn drafting and the different branches of dressmaking.

The above is the regular course for class work. Students who wish to specialize in any one of the departments will be given the special course for which there will be an extra charge.

Business Department

C. G. O'KELLY, Pres.

The demand for intelligent young men and women who have received a business education, is a call that is heard all over the country.

In our Business Department students are thoroughly instructed in all forms of modern office work, including Bookkeeping, Typewriting and Stenography.

Persons desiring more explicit information will have the kindness to write the President of the College or Dean.

BOOKKEEPING COURSE

The Bookkeeping Course embraces the following :

Bookkeeping, Rapid Calculation, Commercial Law, Penmanship, Correspondence, Spelling, Arithmetic, Typewriting, Commercial Geography.

SHORT-HAND COURSE

The Short-hand Course embraces :

Short-hand, Penmanship, Spelling, Typewriting, Correspondence.

THE COMBINED OR SECRETARIAL COURSE

This course is a combination of both of the above courses. A general knowledge of commercial papers and the general routine of office work is of great value to short-hand writers who may not be called upon to make a business of bookkeeping. The ability to write a neat business hand, to assist with books, to handle cash and to make out notes, checks, drafts and commercial papers makes it easy to secure employment, command better salary and increases the opportunity for advancement after employment is secured.

EXPENSES

Bookkeeping Course

Books, etc., ...	\$4.00
Board and Lodging, per month	\$7.00
Tuition ,per month	2.00
Total, ...	\$9.00

Short-hand Course

Books, etc., ...	\$3.35
Board and lodging, per month	\$7.00
Tuition, per month	2.00
Total	\$9.00

It is advised that persons who are interested in any one of these courses come prepared to pay all incidental expenses so that more time can be given to the course desired. It is the policy of the School to render whatever assistance possible to those who are in need. No one should expect that the Institution can give employment sufficient to cover all the expenses.

TIME REQUIRED

The time required to complete one of the above courses will depend largely upon the preparation, ability and application of the student. It is not a question of age, but rather a question of fitness as to one's completing the course.

WHEN TO ENTER

Begin at the opening of the school. If you cannot come then drop us a card or a letter and we will advise you.

For further information write or call

C. G. O'KELLY, President,

..... Dean,

Kittrell College,

Kittrell, N. C.

N. B.—No student will be received in any course of the Business Department whose literary classification would not admit him to our Normal Department .

School of Music

C. G. O'KELLY, President W. A. SYKES, Principal
S. L. SAUNDERS

Music, both vocal and instrumental, has always held a prominent place in the training given by the College. The aim has been to furnish thorough instruction in the branches taught. To do this our goal has been the school

of music. The steps to this have been natural, commencing with music as a branch of study then later making it a distinct department of study, finally ending in the music school of the present.

COURSE OF STUDY

In Class Instruction two students are assigned to the same hour. Each student, however, receives more than twenty minutes of instruction. He has that amount of personal supervision, but in addition he receives all of the criticisms and suggestions made by the teacher to each of his classmates, which he will generally find quite as valuable as those made to himself. The instruction in the case of each student is personal and aims to meet his individual needs, and while the class may or may not be studying the same composition, the suggestions and principles developed are appreciable to all.

Two lessons a week will be given in all branches unless special arrangements are made for more or less.

PIANO-FORTE

For piano students there is a regular piano-forte course covering four years which, if faithfully followed, will develop a good performer and intelligent teacher. The aim being to establish a clear, ringing touch, strong, yet sympathetic; to develop a ready reader and confident executor.

The course includes :

I. Technical exercises intended to give the student control of the muscles of the arm, hand and fingers, making them respond to the orders of the will.

II. Etudes by the best teachers and writers, the purpose of which is to give further technical development as well as intellectual culture, thus forming a ready link between the techniques and master works.

III. Composition by the best ancient and modern

writers, ensemble playing, etc., intended to develop a love for the truly beautiful.

VOCAL CULTURE

The cultivation of the voice in singing has always been regarded as an important branch of study, the object of which is to teach the student in singing the proper management of breath, to produce a good round tone, and to sing with ease and expression.

Careful drills are given in techniques vocalises, scales, and practice in singing selections from the best English German, Italian, French and American song writers, operatic airs and oratorios for the purpose of acquiring pure style and expression.

ORGAN

Organ pupils follow a systematic course consisting of voluntaries, church tunes at sight combining and playing four-part music.

THEORY AND MUSIC HISTORY

Theory, embracing Harmony, Analysis, Thorough-Bass and Composition is taught all who are desirous of becoming thorough musicians, as an essential part of a musical education. In Harmony, the object is to train students to think musically; to become ready readers and to follow intelligently any master performance.

In Composition students are taught the principles of Tune, Formation of Musical Form. To this end a careful study of the different forms of composition will be pursued, special stress being laid on vocal composition.

Instruction is also given in the use of band and orchestral instruments. The school maintains both a brass band and an orchestra.

RECITALS

There are recitals and rehearsals at stated times, thus giving the students of the school of music an opportunity to appear in public thereby becoming accustomed to the audience. A choral society is formed each year of the best voices in the entire school for the purpose of rendering standard choruses, operettas and oratorios.

EXPENSES FOR MUSIC

Tuition

Per month, payable in advance—two lessons per week

Piano-Forte per month	\$2.00
Organ, per month	2.00
Voice Culture, per month	1.50
Orchestral Instruments	1.50

Rooms and Board

Students pursuing the study of music only can secure rooms and table board in the regular College Hall at the same rates as other students.

Students must register their names and pay their tuition before their lessons are assigned.

Only in case of severe illness of several weeks' duration can any deduction be made for absence from lessons. In such cases the College will share the loss equally with the student.

No student is allowed to take part in any public musical exercises without permission from the director.

All students of the music school will be under the general discipline of the College.

A PIPE ORGAN

It will be interesting to our students to learn that a fund has been started looking forward to the purchase of a pipe organ for this department of our work. There is an ever increasing demand for those who can play the pipe organ.

Grammar School Department

SIXTH GRADE

First Term—Stepping Stones Reader No. 6; Hunt's Speller, oral and written, to page 96; Arithmetic, review Common Fractions and advanced work to Compound Quantities; Maxwell's Grammar, Book 2; Tarr & McMurray's Complete Geography; Writing; Music, etc.

Second Term—Reader completed; Supplementary Reading; Spelling, oral and written, to page 112; Arithmetic through Longitude and Time; Tarr & McMurray's Geography; Maxwell's Grammar; Writing, Music, etc.

JUNIOR

First Term—Latin: Tacitus' Germania. Greek: Plato's Apology and Crito. Mathematics: Analytical Geometry. Science: Chemistry. James' Psychology. English Bible.

Second Term—Greek: Plato's Apology and Crito. Mathematics: Analytical Geometry. Science: Chemistry. Logic: Political Economy. English Bible.

SENIOR

First Term—Mathematics: Calculus. Anthropology: Tyler's. Science: Astronomy. Ethics: Haven's

Second Term.—Philosophy of Religion. Sociology. History of Philosophy.

Theological Department

The work in this department is divided in three courses: Full Theological course, an English course, and an Extension Course.

ENGLISH COURSE

This course includes only the English studies, and is maintained for those who desire a ministerial training, but who have not attained such degree of scholarship as would warrant their taking the full course in Theology. Applicants must have at least a Grammar School education to be admitted to this course. Applicants who cannot meet this requirement will be allowed to spend most of their time in the Grammar School, taking the more essential studies of this course. The course covers three years of eight months each. Those completing this

course to the satisfaction of the faculty receive a diploma.

The full Theological course includes everything in the English Course, with the addition of Greek and Hebrew. Applicants should have completed a College Course or its equivalent. Persons completing this course to the satisfaction of the Faculty receive the degree of Bachelor of Divinity.

EXTENSION COURSE IN THEOLOGY

This Course is to take the place of our former Correspondence Course and is conducted for the special benefit of ministers in the active pastorate, aspirants for the ministry, who have not the time to spend at the College, but who desire a course of systematic theology and Sunday-School and lay church workers.. It covers four sessions of six months each comprising seven series of questions and two or three examinations per year. The sets of questions are sent out to the College Extension Pupils each month and personal examinations are conducted at the sessions of the District Conference, the Sunday School Convention and the Annual Conference, at all of which meetings students of this course are expected to be present. At the Annual Conference class promotions are made and recommendations named to the Conference Class Committee and the College Faculty. We recommend this course to all who have not the means of attending school yet feel a need of broader Bible training and systematic theological reading. The tuition is \$5.00 per year, paid in advance, or \$1.00 per month.

REGULAR COURSE OF STUDY

JUNIOR YEAR

HEBREW

Elements of Grammar, studied inductively from Genesis I-VIII. sight reading from Genesis, with exegetical comment.

Text-books: Marper's Introductory Hebrew. Methods and Elements of Hebrew.

NEW TESTAMENT EXEGESIS

The Gospels—their harmony. Exegesis of the sermons of Christ.

HISTORICAL THEOLOGY

History of the Bible, from Creation to Birth of Christ, including the Apocrypha.

Text-book: Blaikie's.

SYSTEMATIC THEOLOGY

Theology as a Science. Theism to Anthropology, inclusive.

Text-book: Miley's Vol 1.

PRACTICAL THEOLOGY

History of preaching. Discussion of famous preachers—their methods and style. Practical exercises in extemporaneous preaching

Text-book to be selected.

BIBLICAL LITERATURE AND ENGLISH BIBLE

Biblical Hermeneutics, History of the versions of the English Bible, Scripture Geography.

Text-book: Hermeneutic, Terry.

ELOCUTION

Gesticulation and Expression, Breathing, Position, Pitch and a study of Hymnology.

MIDDLE YEAR

OLD TESTAMENT EXEGESIS

First Term—Hebrew Poetry. Critical reading of selected Psalms.

Second Term—Major Prophets. Critical reading of Isaiah and Ezekial. Critical reading of Amos.

NEW TESTAMENT EXEGESIS

Pauline Epistles are read critically exegetically. Life of Paul.

Text-book: Life of Paul, Conybeare and Howson.

HISTORICAL THEOLOGY

Apostolic Age to the Reformation.

Text-book: Short History of the Christian Church, Hurst .

SYSTEMATIC THEOLOGY

Anthropology to Eschatology, inclusive.

Text-book: Miley's, Vol II.

PRACTICAL THEOLOGY

Study of the Principles of Preaching and the Structure of Sermons. Critical exercises in choice of texts and subjects, and in making outlines and sermon writing.

Preaching exercises subject to private criticism. Lectures in pulpit decorum.

Text-book: Homiletics, Kidder.

Biblical Literature and English Bible Constructive Studies in Life of Christ.

Text-book: Life of Christ, Geikie.

SOCIOLOGY

The Church and Modern Social Progress, including Problems of Population and Social Organization.

ELOCUTION

Gesticulation and Expression, Emphasis and Articulation.

Text-book to be selected.

SENIOR YEAR

OLD TESTAMENT EXEGESIS

The Minor Prophets critically interpreted. Messianic Prophecies and their fulfillment.

NEW TESTAMENT EXEGESIS

Pauline Epistles concluded. Critical reading of the General Epistles and Apocalypse.

HISTORICAL THEOLOGY

From the Reformations to the Modern Church, giving special attention to the rise of Doctrines and Denominations.

Text-books: Hurst, History of Church; History of Doctrine of Christian Church, Shedd.

SYSTEMATIC THEOLOGY

Methodism and Armenianism. Review of Christology. Reading from different Theology writers.

PRACTICAL THEOLOGY

Pastoral Theology. Lectures on Church Methods. Lectures on Liturgy. Study in Discipline of A. M. E. Church. The conduct of public worship. Lectures on Church Polity.

Preaching in Chapel before student body.

Text-book: Pastoral Theology, Kidder.

BIBLICAL LITERATURE

Archeology, Bennett.

This curriculum obtains in all the courses as follows:

Candidates for B. D. take Greek and Hebrew in New and Old Testament Exegesis respectively.

Candidates for diploma take Rhetoric and Psychology, in lieu of Greek and Hebrew, with college classes.

COURSE OF LECTURES

Arrangements will be made for a course of six lectures to be delivered by men of experience and erudition, and the classes in theology during the year.

Prizes

THE HAWKINS' PRIZES

A gold medal is awarded the student who produces the best oration in the yearly oratorical contest.

A gold medal is given the student making the best record in the Senior Class of the Normal Department.

ECONOMY PRIZE

In order to encourage personal economy, a special prize

is offered to the student whose diary shows the greatest economy in personal expenditures during the year.

THE INEZ B. DUDLEY PRIZE

A gold medal is awarded to the student of the Senior Class Normal Department making the highest average in English.

THE O'KELLY PRIZES

A cash prize of \$5.00 is given the student of the school adjudged the most industrious in the discharge of duty.

A gold medal is awarded the student or students who remain on the Honor Roll for two consecutive years.

THE McCAULEY PRIZE

A cash prize of \$5.00 is given the student producing the best original paper on the Conservation of Health.

The Course in Cooking and Sewing will be carried in all the classes from the Eighth Grade to the Fourth Year Normal for girls, while Manual Training will be taken through the same classes for boys.

Our Needs

Twenty-five Scholarships of \$60.00 each to help worthy young men and women in the fitting of themselves for usefulness.

Additional tools for our shops and farms.

A new set of instruments for our school band.

\$500.00 to help in putting in an adequate water supply.

A Chemical Fire Engine at moderate cost as a means of rural fire protection.

N. B.—Our full catalogue is issued Biennially.

Industrial Department

This department was established to enable us to give our students some practical instruction in honest labor and thereby make them more self-reliant.

For the regular work that requires special managers a limited number of young women and young men are engaged as work students, who take charge of the different phases of work during the day and receive instruction at night. Only a few can be provided for in this way, and such arrangements must be made before the school year begins.

For general duties connected with the school work all students are subject to such duties as may be assigned by the faculty. The work done by students enables the College to run at minimum cost to students.

PRINTING

The school has established a regular Job Printing Office with a sufficient outfit to enable us to do most of our own printing and also some outside work.

A College monthly is published by faculty and students.

SHOE-SHOP

We have a regular shoe-shop on the school grounds and all repairing is done at reasonable rates.

REQUIREMENTS OF THE COLLEGE RELATIVE TO WORK

Owing to the very small amount of monthly charges made by the College, all students entering must do at least nine hours work a week. The time and method of performing this work will be announced in the regular College bulletin. To complete the nine hours work required all students will work at least four hours on Saturday.

LIBRARY

It is a well known fact that habits formed during school life are the most lasting. The world is filled with beautiful literature, and to cultivate a taste for the reading of good books is impressed upon the minds of the students. That they may keep in touch with the things of the world, daily papers and some of the leading magazines and journals are at their disposal. The library is open daily for reading and reference.

Not more than two books are allowed a student at one time; for not longer than two weeks. Our library has twelve hundred and fifty books and seven hundred and twenty magazines. Most of these have been the gifts of friends. Some of the students, realizing the needs of the library, have already a movement on foot to increase during the summer months the number of books. They see that good books not only give life zest and push, but will better prepare them for the broad arena of life. Just here, it is pleasing to note, that the Alumni will erect a Library Building in the near future, which will greatly add to the interest and convenience of the work.

Rules and Regulations

All students are required to conform strictly to the rules and regulations of the College, being urged to do right, not from fear of punishment, but because it is right.

Students are expected to be respectful and obedient to members of the faculty, polite to one another, cleanly in their personal habits, and orderly in their conduct at all times and places.

REQUIREMENTS

1. Every student must register and pay his bill before he can be classified.

2. Only in case of severe illness of several weeks' duration will any deduction be made from the bills because of absence from any class.

3. Students applying for the first time for admission to the school must present evidence of good standing in the communities whence they come; and if they have recently attended another school a recommendation from the head of that school will be required.

4. All preparations for the Sabbath must be made on Saturday.

5. Punctual attendance at chapel, recitations and all school exercises.

6. Strict observance of the study periods.

7. Students are held accountable for all improper language or conduct in their rooms when they are present or have knowledge of it.

8. Rooms must be open at all times to members of the faculty.

9. Students when leaving the College must leave their rooms in proper condition.

10. The rising bell must be strictly observed and rooms put in order before breakfast.

PROHIBITIONS

1. The use or possession of intoxicants of any kind, firearms or other deadly weapons, will not be tolerated at this school.

2. Any student who engages in card playing, uses profane or obscene language, renders himself liable to dismissal.

3. Association with the opposite sex without permission.

4. The use or possession of immoral books or papers.

5. Visiting other students' rooms during the study periods.

6. Loud or boisterous language in or about the buildings.

7. Running up or down stairs.

8. Singing in the rooms or halls.

MERITS

A system of Merits and Honor privileges will be followed as a phase of our method of securing discipline and order.

When it appears that the presence of any student is prejudicial to good order and discipline such student will be summarily dismissed.

COLLEGE COLORS

The official colors of Kittrell College are blue and gold. Each class selects its own colors.

COLLEGE EXPENSES

The school year consists of Thirty-two Consecutive Weeks or eight months of four (4) weeks each.

When bills are paid by the week, the charges are as follows :

FOR ALL LITERARY COURSES

Board, Tuition, Room Rent, Light and Fuel....\$2.00

When bills are paid by the month (4 weeks), charges are as follows :

Board, Tuition, Room Rent, Light and Fuel....\$8.00

EXTRA CHARGES

Commercial Department Tuition, per month.. \$2.00

Special Pupils Domestic Science Department,
per month 2.00

Music Pupils, Violin, Piano, Organ, Voice Cul-
ture, Two lessons per week, per month..... 2.00

Laundry (young men), 25c. per week, or per
month 75

Matriculation Fee (required of all) 2.00

Students applying for first time pay this when
application is accepted.

Entertainment Fee (required of all) \$1.00

Athletic Fee (required of all) 1.00

N. B.—We suggest that patrons pay bill either by the term or weekly, since our bills come weekly. The school year is divided into two terms.

Students doing work more than the regular requirement will be paid in cash for such extra work at a given rate per hour.

Students whose accounts are behind will be dropped from the regular classes until such accounts are paid up.

PAY-DAYS

Monthly for the Year 1915--'16

Sept. 30, Oct. 28, Nov. 25, Dec. 23, Jan. 20, 1916; Feb. 17, March 17 and April 14.

Weekly.

When paying weekly, each Thursday in the month from the beginning, Thursday, Sept. 30, 1915, to Thursday, April 14, 1916.

BILLS PAYABLE WEEKLY OR MONTHLY IN ADVANCE

At this very low rate of charges the College cannot be sustained on any other than a cash basis.

The President becomes responsible for all deposits made by students and at the end of each month will submit a regular statement showing balance due.

THINGS FURNISHED BY THE SCHOOL

Beds and necessary room furniture with coal wood, lamp and oil are furnished by the College.

THINGS TO BE FURNISHED BY STUDENTS

Blankets, quilts, towels, two sheets, two pillow cases, one pillow and napkins must be furnished by student; also a white counterpane. All should have their clothing, bedding, towels, napkins, etc., properly marked with indelible ink before coming.

ADMISSION

All those desiring admission as boarding students should write to the President as soon as possible, making application in their own handwriting, taking particular pains to give their age, sex and name of parents or guardian. A matriculation fee of \$2.00 must be paid in when application is accepted.

Required age for admission as boarding students, fourteen (14) years.

RELIGIOUS WORSHIP

Devotions are held morning and evening every regular school day and regular services are held in the school

chapel every Sunday morning and evening. Sunday-school in the forenoon. All students are required to be present on each occasion. There are also weekly prayer meetings conducted by teachers and pupils in which all are privileged to enjoy spiritual praise without any feeling of restraint or compulsion.

Y. M. C. A., Y. W. C. A., AND Y. P. S. C. E.

Aside from general Christian work mentioned above there is a regular branch of the Y. M. C. A., conducted very successfully by the young men under the rules of the College Association of Y. M. C. A.; a Y. W. C. A. for the girls and a regular organization of the Allen Christian Endeavor League.

The work of these societies proves very helpful to their members and to the school generally.

LITERARY SOCIETIES

There are four literary societies under the supervision of the faculty yet governed by the students themselves. These societies have proved very helpful and instructive. Every member is required to perform all duties assigned.

AMUSEMENTS

As far as possible we seek to make our school life pleasant and happy. Special arrangements are made to afford time and means for healthy and pleasant recreations. Suitable grounds are set apart for outdoor sports and special time allowed for them.

Occasional socials are given in the school assembly room, where the members of the faculty and such guests as they may invite, join in helping us encourage true social dignity and refined manners.

From time to time high-class entertainments are given

for the instruction and pleasure of teachers and students by the best talent available. The Entertainments Fee admits students free to all.

FALL TERM BEGINS THURSDAY, SEPT. 30, 1915

Kittrell College School Song and Yell

Words by Frances Jeffreys

Music by Prof. Wm. A. Sykes

(YELL)

Ha! Wah! Bish! Boom : Bah !
K. C..! K. C.! Rah! Rah Rah!

- 1 Our hearts leap forth when we behold
Our Dear Old College, strong and bold,
Encircled e'er by hill and dell,
K. C. of thee we love to tell.

(Chorus)

K. C. we'll e'er be true to thee
And hold thee dear in memory,
Though time shall lead us far away,
Our love will never stray;
Thy students thou canst always trust,
Thy banner ne'er shall trail the dust
We love, adore and honor thee,
(Spoken) Now give three cheers for old K. C.
Rah! Rah! Rah! Rah! Rah! Rah!
Hurrah! for old K. C.

- 2 Our Presidents' a noble band,
They do for us whate'er they can.
Our Faculties are strong and true
Hurrah! Hurrah! for Gold and Blue.

- 3 We work together for one end,
Our boys are all brave, loyal men;
Our girls are noble, fair and true,
And bear the colors Gold and Blue.
- 4 We love our books, we love our play,
We love a glad, bright holiday;
We always love our friends to see,
But best of all we love K. C.
- 5 Our Alumni and Alumnæ—
A loyal clan, ne'er born to die;
They honor well the Gold and Blue,
In all the noble deeds they do.
